We had some theories that Cecilia may have died in Barnsley in 1819 and she was in her 70s at that point. There was a James Fletcher (married to a Jenny), also a clockmaker in Rotherham, who died in 1825 aged 56, so quite possibly her son. There was also a Thomas Fletcher around 1800 so perhaps a clock-making family?" Hess	Rosetta	Liverpool	Lancashire	1825 - 1834		At Pool Lane. Grateful for the following information provided by Darlah Thomas "Born in Liverpool c 1781 Married to silversmith Israel Hess (origin not known) He died c. 1820 and she appears to have carried on his business. Israel Hess is in the Freemasons' Registers in Liverpool from 1790 or possibly 1798, the last digit is difficult. Loomes has her listed as in Liverpool 1825-1834. Rosetta's son Ralph (born 1811) is listed as a watch manufacturer and as Hess & Co. Ralph never married and he and several of his seven sisters continued to live with Rosetta until her death on 24 June 1864. Thereafter he remained at the same address with some of the sisters until his death on 17 Nov 1871 when he was described as a general merchant. Hess & Co had a presence in 17 South John Street, Liverpool in 1843 and later, where Ralph and brother (I think) Henry Hess worked. Henry's son Joseph Hess also worked as a watch manufacturer, but in partnership with Samuel Yates as Yates & Hess.	Brian Loomes, Darlah Thomas
